Requested Amount:	\$5,000
<p>A lack of social interaction and learning experiences for disadvantaged youth is known to be a cause of low academic achievement, obesity, behavioral problems, and social and emotional developmental difficulties. Within our own community HARC studies tell us locally 25% of children have difficulties with emotions, concentration, behavior, and/or getting along with others and that 46% of children age two and older have a BMI percentile that puts them in the “overweight” or “obese” category. To address this we’re offering a two-day immersive dance event with professional performances and training opportunities for the community, to include a special educational package to ensure the inclusion of disadvantaged youth. We are seeking your support to underwrite 6 educational packages equaling 48 participants to attend a professional performance on Nov. 19, and to participate in 2 dance workshops with the visiting professional choreographers on Nov. 20th.</p>
